

SOMERSET STREET DRAINAGE WORKS

The drainage channel located along Somerset Street is currently being replaced with a network of pipes. This work is transforming the street, improving the presentation of the PRACC to the street. Undergrounding the drainage will result in not only a more aesthetically pleasing streetscape but also a higher level of safety for all road users.

This thoughtful initiative ensures that the edge of the road now presents a cohesive and inviting appearance, contributing positively to the overall appearance of the area.

QUADRANT STREET MIRRORS

The Shire have installed the new mirrors at the intersection of Quadrant, Brown and Pasture Streets to improve road safety and good line of sight when driving into the intersection.

These mirrors are of polished metal which are intended to be more vandal resistant than their glass counterparts. It is also intended to install similar mirrors at the corner of Parade and Brown Streets.
